Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: The UAA survey was conducted in October 2008 and no evidence of WBCR was observed. A footbridge and a path to the stream were observed. No interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☒ No
Comments: The stream did not meet the maximum or the median depth criteria at any of the sites evaluated. Because the stream did not meet the depth criteria and there is no evidence of existing use, the committee recommends that the WBCR use designation be removed. Due to evidence of secondary contact recreation (SCR), the committee recommends that the SCR use be assigned.

Committee Recommendation: ☐ Add Use ☐ Retain Use ☒ Remove Use
☐ Modify Use ☐ Inconclusive
